EUROSAI Strategic Plan 2011-2017

Doc. GT4

Draft GT4 Overall Progress Report for the period June 2011 – May 2017

May 2017
Goal Team Chair

EUROSAI Presidency:

Goal Team Members (2011 -2014):

France, Chair of Goal Team 1
Germany, Chair of Goal Team 2
Czech Republic, Chair of Goal Team 3
Spain, EUROSAI Secretariat
Poland, former EUROSAI Presidency
The Netherlands, incoming EUROSAI Presidency

Goal Team Members (2014 -2017):

Hungary, Chair of Goal Team 1
Germany, Chair of Goal Team 2
Czech Republic, Chair of Goal Team 3
Spain, EUROSAI Secretariat
Portugal, former EUROSAI Presidency
Turkey, incoming EUROSAI Presidency

Invited Experts:

Denmark
United Kingdom
INTOSAI Planning Director
INTOSAI secretariat

Invited Experts:

United Kingdom
Poland
INTOSAI Director of Strategic Planning

Date of approval by Goal Team: 02-05-2017

Date of submission/circularisation: 03-05-2017
Contents

Decisions required from the GB p. 4

GT4 Overall Progress Report

II. Executive summary p. 5
III. Conclusions and Recommendations p. 8

Overall status of the implementation of the SP

Overall status of the implementation of the Strategic Plan p. 10
Implementation of GTs Operational Plans p. 11
Evaluation of cross-cutting issues p. 15

Annexes to the overall progress report

Annex I: Overall assessment of the results achieved (April 2011-April 2017)
Annex II: List of EUROSAI Training Events 2011-2017
Annex III: Overview of the Products developed by Goal Team 1
Decisions required

For approval of GB

- The draft Resolution on benefits of internships and staff secondments
- The proposal for dissolution of GTs (for X Congress endorsement)

For acknowledgement

GT4 Overall Progress Report

Introduction
This is the overall progress report of the strategic period 2011 - 2017. This document aims to give an impression of what the four Goal Teams have achieved during the strategic period. A first glance already shows that the four Teams have accomplished a lot. And in the opinion of the NCA Presidency, they really have. We hereby duly recognise the enormous efforts made by the members and invited experts of the four goal teams, as well as by the other Goal team leaders over the past 6 years. We thank them for this important in-kind contribution to the success and development of our regional organisation.

We start this report with a summary of the main results achieved in the last 6 years. Thereafter an overall status of the implementation of the Strategic Plan, an overview of the main achievements of the individual Goal Teams is given. This is followed by a short description of the main cross-cutting issues that have been identified during the strategic period. This part will be concluded with a short discussion and recommendations for the coming strategic period.

This document contains several annexes. First there is the table with the overall assessment of the results achieved. The second Annex contains a list of all the seminars and other events organized in the last six years on behalf of EUROSAI (Annex II). Finally, Annex III contains a visual overview of the products developed by Goal team 1.

This report has a different content and lay-out than the previous overall progress reports. The reason for this is that almost every task has been executed. In our opinion graphics with only 100% bars do not add value to the discussion about this report. The graphics shown in the previous reports are therefore not included.

Since this overall progress report is an evaluation over six years, a lot of the information it contains is drafted on a higher level. The table in Annex I contains more detailed information, but is still focussed on a higher level. For more detailed information about the activities of the individual goals we refer the reader to the individual progress reports of the four goal teams.

II. Executive summary

Over a period of six years the four Goal Teams and other EUROSAI members worked hard to achieve EUROSAI’s four strategic goals. Before we summarize the main achievements we provide a reminder of those four goals:

1. **Capacity building**: Facilitate the development and strengthening of institutional capacity of EUROSAI members.
2. **Professional Standards**: Promote and facilitate the implementation of the international Standards of Supreme Audit Institutions (ISSAI) and contribute to their further development.
3. **Knowledge sharing**: Encourage cooperation and exchange of experience among EUROSAI members, within INTOSAI and with external partners.

4. **Governance and communication**: Manage EUROSAI in accordance with the principles of good governance and effective communication.

At the end of the strategic period the following achievements are visible:

1. **Knowledge-sharing** - Tools have been developed in order to bring the knowledge and experiences of individual SAI-members together and make these available to other members. This has resulted in several different products. Examples are:
   - databases on audits, products, training events and surveys conducted, as well as overviews of evaluations of training events and other events;
   - the publication of booklets sharing best practices on for example capacity building and innovation.

2. **Professionalisation and international standards** - Another important focus of this strategic period was the further professionalization of the audit function and the work of the SAIs. In this regard the promotion of the International Standards for Supreme Audit Institutions (ISSAIs) and the INTOSAI Guidance for Good Governance (INTOSAI GOVs) is important. Articles were written on this subject, seminars organised and the ISSAIs and INTOSAI GOVs were translated into Russian (the only official EUROSAI language that is not also an official INTOSAI language) and published on the EUROSAI website. Through these activities, the use and the understanding of the international standards was enhanced. In addition, subjects like the independence of SAIs and audit and ethics were identified as important subjects, discussed and experiences exchanged between EUROSAI members.

   With a survey among EUROSAI-members and a seminar held in March 2014 in Hungary SAI independence was discussed among members. Also a seminar on ethics was organised by the SAI of Portugal. Recently a video contest was launched to explain the importance of ethics in the work of SAIs.

3. **External relations with stakeholders** - The cooperation with INTOSAI and other external partners has been strengthened during this strategic period. Especially the cooperation with INTOSAI and different committees like the INTOSAI Capacity Building Committee, INTOSAI Professional Standards Committee and the INTOSAI Donor Steering Committee have been improved. In this period there was an increase in requests from INTOSAI to EUROSAI to present a regional position or regional input on a new policy or developing issue. The Governing Board reviewed the role of the EUROSAI representatives in the INTOSAI Governing Board and agreed on the need for good coordination in advance of and in follow-up to the INTOSAI GB meetings. In different GTs a representative of INTOSAI was invited as an expert.

   Also contacts to exchange knowledge and to keep each other informed on developments were established. The EUROSAI Presidency and Secretariat participated in the INTOSAI Strategic Plan Task Force. Contacts with and the exchange of experience between EUROSAI and the other regional organisations were improved, and recent joint conferences evaluated with a view to ensuring the continued relevance and added value of these meetings in the future. An other important partner with whom the corporation has been strengthened is the European Confederation of Institutes of Internal Auditing (ECIIA).
Development of new EUROSAI Strategic Plan (2017-2023) and accompanying governance enhancements – A key achievement of the second half of the strategic period was the development and approval of the new EUROSAI Strategic Plan for 2017-2023. The aim was to draft a focussed, demand-driven and forward-looking document, addressing new challenges and supporting the successful realisation of EUROSAI’s key goals in the coming years. The plan draws upon the insights of the EUROSAI self-assessment, as well as on the external scan of similar international organisations, both conducted over 2015 and 2016. The current Governing Board was also given a key role in defining the framework for the Strategic Plan and the two strategic goals. Since structure follows strategy and the importance of promoting a new way of working together was emphasised, the governance, modus operandi and structure of EUROSAI were also reviewed and enhancements proposed.

The result is a draft Strategic Plan with two goals focussed on professional cooperation and institutional capacity development, and a separate chapter in which the importance of accompanying governance enhancements, such as GB portfolios and more use of agile project groups, is highlighted.

Linked to these achievements, improvements in the governance and operations of EUROSAI were made. The following has been achieved in this strategic period:

1. **EUROSAI website** - an important tool for EUROSAI is the website. It is used as a platform where members can find information they are looking for. Not only information concerning EUROSAI but also information about for example different type of audits or the ISSAI and INTOSAI GOV or documents that have been published. The four Goal Teams, WG and TF, as editors of the website, together with the Secretariat, as administrator, have continuously uploaded it with documents, news, events in the calendar, in order to keep visitors posted on EUROSAI issues. During the second half of the strategic period the website was revised and redesigned on the basis of the suggestions of the members. Also tools have been added to the website to facilitate cooperation between member SAIs. Examples are the databases of audits, surveys and products.

2. **EUROSAI magazine** - another important tool is the EUROSAI Magazine. The magazine is an excellent tool for bringing subjects to the attention of members and for knowledge sharing. Goal Teams have regularly contributed to every issue. For example, the implementation of ISSAI has been discussed by GT2. During this strategic period the EUROSAI Magazine was reviewed and revised by a survey conducted to all members, in order to make it a more useful and interesting tool for its audience. Following the recommendations of the revision, the latest issues were designed in a more attractive way. In addition, an editorial board will be set up.

3. **Training and knowledge sharing events** - the last important tool that needs to be mentioned here is the organisation of events like training sessions, seminars, conferences, workshops and e-seminars. This type of event plays an important role not only in sharing knowledge and experience, but also in providing a forum to debate about the work of SAI-members and relevant issues. To support the organisation of events within the context of EUROSAI several tools were developed during the strategic period. Examples are a training needs-assessment, the development of a list of training experts within EUROSAI and the production of a flyer on how to organise an event. The number of training events organised in this strategic period needs to be mentioned: 31 in total. Deserving special attention here are the two Young EUROSAI (YES!) Conferences for young employees of SAIs held in the Netherlands (2013) and Israel (2015), which have developed their own momentum and
added value within EUROSAI, the well-attended Open Data conference held in the Netherlands in November 2015 and also the well-attended conference on the importance of ethics and integrity for SAIs held in Hungary in autumn 2016.

There are also lessons to be learned from the current Strategic Period. For example, a large number of goals, sub-goals and sub-sub-goals were formulated in the original Strategic Plan. This led to many pre-defined activities, which were duly implemented. However, the large number of activities planned in some cases limited the room to adapt and respond to changing priorities and circumstances. This issue has been taken into account in the development of the Strategic Plan 2017 – 2023, which gives more freedom on the design and execution of activities to the responsible teams and SAIs leading initiatives. The concrete activities will be included in the Operational Plan, which can be updated and amended annually, working towards the desired outcomes.

III. Conclusions and Recommendations

Conclusions

An important conclusion is that a lot of work has been done during the Strategic Period 2011-2017 and a lot has been achieved. This has helped to strengthen EUROSAI as a platform for knowledge sharing, debate and professional development between members. This work will continue during the next Strategic Period 2017-2023. On the basis of the experience of EUROSAI’s first ever Strategic Plan the four Goal Teams formulated a number of recommendations for the coming Strategic Period.

Recommendations for the Strategic Period 2017-2023

Goal Teams 1, 2, 3 and 4 formulated their own recommendations in line with their experience with the implementation of their respective goals. For these recommendations the reader is referred to the reports of the individual Goal Teams.

Based on the discussion between the representatives of the four goal teams, the following overarching recommendations are made to the Governing Board:

When drafting and implementing the Operational Plan for the new Strategic Period,

- Allow for flexibility and agility within the Operational Plan;
- Focus on the impact of the activities or products and not on the outputs themselves;
- Focus on the added value of initiatives for the members of EUROSAI and public sector auditing;
- Keep alive the successful initiatives of the previous period, such as the maintenance and promotion of the databases, other products and results delivered by the individual goal teams;
- Continue to celebrate successes;
- Simplify and lighten the accountability and reporting arrangements, thereby making them more transparent, useful and less time-consuming;
- Set up a project group to review and revise the EUROSAI regulations;
- Continue to work with terms of reference for events and project groups - they are helpful in clarifying responsibilities and providing focus.
The proposed new EUROSAI Strategic Plan, the guidance provided by the Memorandum on EUROSAI structure and governance and the initial work done to prepare the operationalisation of the Strategic Plan, have already taken on board many of the above-mentioned recommendations and provide a sound basis for their implementation.
## Overall status of the implementation of the Strategic Plan

The execution of the strategy has so far produced the intended results in schedule.
The execution of the strategy has not yet produced the planned results and is a bit late, but its success is not compromised.
The execution of the activity/project is compromised in its results and/or time.

99% of the activities planned to be executed during the current reporting period were executed as planned.

GOAL 1
Capacity Building:
Facilitate the development and strengthening of institutional capacity of EUROSAI members.

Main results achieved

Key activity 1.1. Establish conditions ensuring maximum use of available data, products and experience of others engaged in the field of capacity building

- Promotion of the use of relevant materials and information: creating a list of capacity building materials.
- Identification and dissemination of examples of regional good practices in capacity building within EUROSAI, raising awareness.
- Proper coordination established with IDI, INTOSAI Capacity Building Committee, INTOSAI Donor Steering Committee and other groups that can deliver capacity building activities.

Key activity 1.2. Establish the operational framework for facilitating capacity building development

- Promotion of innovation in EUROSAI: Publication of series of booklets (Volumes I-IV) about innovative initiatives of a number of European SAIs, as examples and source of inspiration to others.
- Raising of awareness on relevance, role and opportunities and needs of SAIs, as well as practical help regarding open data (seminar).
- Spreading of new ideas on promotion of innovative approaches regarding

---

1 To calculate the global percentage, we proceeded as follows: after having calculated the execution average within each Strategic Goal, it was then applied for each of them a factor of \( \frac{1}{4} \) - assuming equal weight of each Goal; finally, the four weighted average values were all added up, i.e.:

\[
\sum_{i=1}^{4} \frac{1}{4} \times \text{mean}_i, i = 1,2, \ldots, A.
\]
municipality audit (seminars).

Key activity 1.3. Facilitate and support the development of strategies for capacity building at SAI level
- Promotion of knowledge of IDI and INTOSAI WGVBS tools including SAI-PMF.
- Promotion of the use of SAI PMF pilots, ethical and other integrity based self-assessment tools by informing EUROSAI members (seminar).

Key activity 1.4. Take active steps to strengthen and support SAI independence
- Analysis of the core dimensions of SAI independence among EUROSAI members (via questionnaire) and dissemination of results (report and seminar).
- Creating of roadmap for reaching SAI communication goals to support SAIs on effectively delivering their messages.

Overall results
- Supporting the strategic planning of EUROSAI: GT1 members’ ideas collected on the EUROSAI Strategic Plan 2011-2017 and input provided for the strategic planning of EUROSAI for the period 2017-2023.
- Promotion and dissemination of GT1 results and materials during XXII INCOSAI.

Goal 2
Professional Standards:
Promote and facilitate the implementation of the international Standards of Supreme Audit Institutions (ISSAI) and contribute to their further development.

100% of activities executed as planned

Main results achieved

Main results achieved in the second half of the strategic period:

Key activity 2.1. Raise awareness of the ISSAI and INTOSAI GOV
- 30 ISSAI and INTOSAI GOV translated into Russian and published on the EUROSAI website. Among them the Declarations of Lima and Mexico and the ISSAI 100, 300 and 400.
- Russian ISSAI translations on EUROSAI website visited by around 900 users from January 2016 to April 2017
- 4 articles in the ISSAI spotlight in the EUROSAI magazine on the ISSAI Harmonisation Project (2012), the New ISSAI 5500 series (2013), the Cooperation between SAIs and internal auditors (2014), and the Revision of ISSAI 30 (2015)

Key activity 2.2 Support EUROSAI members in implementing the ISSAI and INTOSAI Guidelines for Good Governance
- 9 Seminars on ISSAI implementation organised by GT2 and EUROSAI Working Groups and Task Forces
- Participation of 9 EUROSAI members in IDI ISSAI Implementation Initiative (3i Programme): 25 ISSAI facilitators certified

Key activity 2.3 Contribute to the further development of the ISSAI and INTOSAI Guidelines for Good Governance
- Observation of the process to introduce the INTOSAI Framework for Professional Pronouncements (former ISSAI framework) by participating in PCS steering committee meeting and feedback of EUROSAI position
- EUROSAI-ECIIA Cooperation committee:
  - 18 committed members
  - 9 cooperation activities, among them:
Main results achieved in the first half of the strategic period:

- ISSAI and INTOSAI GOVs are made available in English, French, German and Spanish on the EUROSAI website. Column called ‘ISSAI spotlight’ in the EUROSAI Magazine since issue 18/2012
- “Relevant” professional material defined and included in EUROSAI Database of Products. Collection of material is ongoing
- Cooperation with INTOSAI PSC, its sub-committees, INTOSAI CBC and IDI established. Contact persons from PSC and its subcommittees are members or invited experts for GT2. GT2 chair participates in PSC steering committee meetings and EUROSAI members participate in all PSC sub-committees.

### Goal 3

**Knowledge sharing:**

Encourage corporation and exchange of experience among EUROSAI members, within INTOSAI and with external partners

100% of activities executed as planned

#### Main results achieved

**Key activity 3.1. Enhance the use/implementation of the results of the work produced by individual SAIs, EUROSAI and INTOSAI Committees and WGs as a tool for cooperation**

- Created a database of audits, database of products and database of training events and outputs, including a video tutorial on how to add audit materials into the database of audits.
- Supporting activities on the organisation of seminars and other events has been undertaken. Examples are:
  - Establishment of a list of training experts and regular updating it,
  - Cooperation with the INTOSAI CBC Subcommittee on Cooperative Audits: new EUROSAI training experts included in the new INTOSAI Experts Database (EDB)
  - Creating, circulating and evaluating of the questionnaire on training needs
  - Supporting of the organisation of EUROSAI training events
  - Preparing and using of interactive evaluation forms in Lime survey format for the evaluation of training events
  - Preparing and using of impact evaluation forms
  - Organisation and evaluation of several training activities including e-seminar
- The parts concerning knowledge sharing field, e.g. GT3 section and training section on the EUROSAI website have been updated
- Preparing of template presentation about EUROSAI – EUROSAI at a glance, Improving awareness about EUROSAI and its products (in form of presentations at several meetings, booklets about EUROSAI products circulated at several meetings etc.; this task is performed by GT4 in 2014)
- Reports on feedback and follow-up on EUROSAI training events etc.

**Key activity 3.2. Enhance audit cooperation within EUROSAI**

- Creating, circulating and evaluating of the questionnaire on possible areas for cooperative activities and needs of SAI
- Cooperation with the INTOSAI CBC Subcommittee on Cooperative Audits: new
EUROSAI training experts included in the new INTOSAI Experts Database (EDB)

Key activities 3.3. (Enhance cooperation within INTOSAI) and 3.4. (Enhance cooperation with external partners) are being performed by GT4 since 2014.

Goal 4
Governance and communication:
Manage EUROSAI in accordance with the principles of good governance and effective communication

Main results achieved
Goal Team 4 had an ambitious programme aimed at ensuring the successful implementation of the first ever EUROSAI Strategic Plan and further enhancing the governance and communications of the organisation. Much was achieved and lessons were learned along the way. The main results are summarised below, starting with the final year and subsequently the previous years are dealt with.

Main results achieved during the final year - 2016-2017:

Key activity 4.1. Ensure that EUROSAI has an organisational structure that best supports the achievement of the strategic goals

The Independent evaluation of the EUROSAI Governance and Modus operandi entrusted to GT4 by the GB was successfully carried out in phase I. As results from this phase two reports - an external scan of similar organisations and an analysis of the self-assessment conducted amongst EUROSAI members - were delivered, discussed and approved by the Governing Board. The reports were – together with a management summary - distributed to EUROSAI members. The reports provided valuable input into the drafting of the new EUROSAI Strategic Plan and the development of the Memorandum on governance enhancements.

The 44th GB meeting in Luxembourg discussed the representation of EUROSAI within the INTOSAI GB. It was confirmed that the EUROSAI representatives should speak on behalf of the EUROSAI community rather than their national SAI. This requires good coordination between the EUROSAI members on the INTOSAI GB and the EUROSAI GB in advance of the meeting, and accountability arrangements for follow-up.

In the run-up to and during the INCOSAI Congress in Abu Dhabi in December 2016, EUROSAI responded as a regional organisation to requests for regional inputs to the Strategic Plan and to the Congress themes – 1) the SAI response to the UN SDG’s and 2) Professionalization. During the congress meetings were held with representatives of the other regional organisations to further the bilateral and multilateral exchange of experiences.

Key activity 4.2. Strengthen EUROSAI’s capacity to achieve its strategic goals

The main focus of GT4’s work in this period was the development of the new EUROSAI Strategic Plan 2017-2023, which was endorsed by the Governing Board in February 2017 at an extraordinary meeting held in Moldova. Subsequently the draft Strategic Plan was disseminated amongst EUROSAI members for comments. A Memorandum on Enhanced Governance and Modus Operandi, going into further detail on the enhancements proposed in the Strategic Plan, was also approved by
the GB and circulated for information amongst the EUROSAI members. The latter will provide guidance to the new GB on the operationalisation of the Strategic Plan after its approval by the Congress. See Annex 1 for the report of the design and development of the Strategic Plan 2017-2023. In this regard, a Resolution for the X Congress’s approval was drafted and a proposal to amend the EFR, in what concerns the process of applying and granting financial subsidies, was also elaborated.

**Key activity 4.3. Fostering effective internal and external communication to promote the accomplishment of EUROSAI’s strategic goals**

A proposal with recommendations on the EUROSAI Magazine’s improvement and promotion, based on the results of a survey, was delivered to and approved by the Governing Board. The new concept and other recommendations of the EUROSAI Magazine are being implemented. A draft for a Terms of Reference of the Editorial Board of the Magazine was elaborated for GB approval.

The KSC-IDI Community portal was tested and IT colleagues from the SAIs of Portugal and Spain were trained by IDI to assist with video-conference, forums, blogs, e-learning and other functionalities.

The use of video-conferencing was further promoted through a GT4 meeting convened on 6 February 2017, organized by the Presidency, and on April 6, 2017 when a meeting of the Governing Board was held by videoconference, organized by the Secretariat, for the first time.

**Main results achieved the previous years:**

**Key activity 4.1. Ensure that EUROSAI has an organisational structure that best supports the achievement of the strategic goals**

A fact sheet with basic information about organizing training events (including financial issues) was published for use by EUROSAI members. A Practical Guide for organising EUROSAI training events was regularly updated. Lists of EUROSAI training events and EUROSAI experts were created and regularly updated. Some of the experts were included in the INTOSAI database of training experts and specialists. GT4 reported to the Governing Board on feedback and follow-up on EUROSAI training events, provided an overview of the financial applications for Governing Board approval and regularly updated the training part of the EUROSAI website.

Planning, monitoring and reporting requirements (PMRR) were defined and implemented and support was given to the other Goal Teams. Progress reports on the implementation of the SP were presented to the Governing Board and cross-cutting issues affecting the delivery of all Goal Team activities were regularly identified, addressed and monitored. Examples include the use of electronic communication tools, training coordination mechanisms, cooperation issues, surveys, databases and funding.

EUROSAI’s ‘voice’ has been enhanced within INTOSAI notably by contributing in the following fields: ISSAI due process, implementation and review of ISSAI 30, drafting of ISSAI 5510, 5520 and 5540, providing comments to ISSAI 100, 200, 300 and 400, preparation of IDI’s IT Audit guidance and training; and contributing to the INTOSAI
Strategic Planning Task Force.

Key activity 4.2. Strengthen EUROSAI’s capacity to achieve its strategic goals
The EUROSAI Financial Rules were compiled and approved for the strategic period 2011-2017. A proposal for financing projects from the EUROSAI Welfare Fund was submitted to the Governing Board. Criteria for assessing financial requests were developed and the EUROSAI Financial Rules were amended accordingly and submitted to the Governing Board for approval. For the next strategic period 2017-2023, a proposal is being developed.

Key activity 4.3. Fostering effective internal and external communication to promote the accomplishment of EUROSAI’s strategic goals
A communication platform (Pleio) introduced by the Netherlands Court of Audit was chosen to be tested as a tool to enhance the peer communication between SAIs’ staff. Following testing, it was eventually decided to go forward with a different platform, namely the Blackboard also used by IDI. This has been tested by the Taskforce on Audits and Ethics and will be further explored in the future.
A global internal and external communication framework for EUROSAI was adopted by the 2014 Congress. Moreover, the EUROSAI Website was redesigned, updated and launched in the five EUROSAI official languages. For more achievements and conclusions regarding the 1st period 2011-2014, the Mid-Term Review Report (2014) can be consulted.
The concept of an event especially for young auditors aged 35 and under, contributing innovative ideas to EUROSAI’s work and developing an active network of young colleagues across the EUROSAI membership was successfully implemented in the period 2013 – 2017. The first YES! (Young EUROSAI Conference) was held in Rotterdam to provide input for the 2014 EUROSAI congress in The Hague, the second was hosted by the SAI of Israel in Jerusalem in 2015 and the third is planned for Tallinn, Estonia in September 2017.

Evaluation of cross-cutting issues

<table>
<thead>

<td></td>
<td>€392.424,00</td>
<td>€174.238,98</td>
<td>€218.185,02</td>
</tr>
</tbody>
</table>

The Secretariat continues to observe that there is a low percentage of SAIs that apply for funding in recent years. It investigated the reasons behind this last year. The main explanation is that SAIs usually use their own facilities, so the costs they incur are hospitality expenses (not covered by the EUROSAI budget) and if they have other expenses they are usually too modest to undertake the effort to request and justify fund transfers.

At the Secretariat’s request, GTs agreed on common criteria for assessing financial requests from the EUROSAI budget. The EUROSAI Financial Rules were amended accordingly.

Information on the funds available in the Welfare Fund and on possible projects expected to be in need of funding were presented to the Governing Board.

(* The financial information used here has been provided by the Secretariat.)

EUROSAI website and collaboration platform

The four GT’s have used the EUROSAI website for the dissemination of information on the next subjects:
- Information on the tasks performed by the individual GT’s (including updating the GT documents on the website’s section, news items, minutes of meetings);
- maintaining and improving the different databases: of audits (contains nearly 1000 audits from 25 EUROSAI members and continues to grow) database of products (contains 217 items) and the Database of training events and outputs.
- the website is an important tool for keeping members updated on EUROSAI issues, through the calendar and the news section, for disseminating important information like the Russian ISSAI translations, EUROSAI’s regulations (ESP, Statutes, etc.) and to follow other GT’s activities’ results.

Sustainability

Three of the four goal teams have been working with sustainability initiatives. The goals team
| **Interaction with INTOSAI groups** | All four Goal Teams had interaction with INTOSAI groups. There have been fluent contacts with:
- INTOSAI Presidency and Secretariat;
- INTOSAI Donor Cooperation;
- IDI;
- INTOSAI Regional Organizations;
- INTOSAI CBC, KSC, PSC and its Sub-committees.
The nature of the contact is very diverse. EUROSAI has given input and feedback to different kind of INTOSAI initiatives, by email, by participating in meetings, preparing INCOSAI, inviting INTOSAI representatives as experts and exchanging knowledge, experience and information. |
| **Cooperation with other organizations or partners** | Also the cooperation with other external partners is a point of attention. Mainly the cooperation with ECIIA has been developed (agreement on cooperation activities, set-up of Cooperation committee and SAI-IA contact persons network to implement cooperation) |
| **Publications** | The GTs contributed to the EUROSAI magazine on an annual basis. |
| **Impact of the conclusions and recommendations of the IXth EUROSAI Congress in GTs Operational Plans update** | - Culture and leadership: An independent evaluation on the governance and modus has been conducted (Phase I).
- Cooperative audit activities have been investigated on health care, extractive industries and open data, activities for GT3 and GT1 together with WGIT (open data).
- Delivering the message: this is an activity included in the GT1 Operation Plan.
- Open data: EUROSAI facilitates a discussion on the opportunities and consequences for SAIs of open data; a EUROSAI wide seminar was conducted in November 2015 in Amsterdam. This is a GT1 activity, with the professional support of EUROSAI ITWG, and supported by the Presidency.
- The concept of an event especially for young auditors aged 35 and under, contributing innovative ideas to EUROSAI’s work and developing an active network of young colleagues across the EUROSAI membership was successfully implemented in the period 2013 – 2017. The first YES! (Young EUROSAI Conference) was held in Rotterdam to provide input for the 2014 EUROSAI congress in The Hague, the second was hosted by the SAI of Israel in Jerusalem in 2015 and the third is planned for Tallinn, Estonia in September 2017. |
| **Others: surveys** | Surveys are a well used tool for collecting information within EUROSAI. To prevent EUROSAI members from being overloaded by surveys GT4 attempted to take on a coordinating role. This proved difficult. A survey tool had been selected. The tool, LimeSurvey, has already been used successfully for several surveys conducted. |
Annexes to the overall progress report
## Implementations Strategies

### Key act

### SP Outcomes and Performance Measures (9)

### Results achieved until 2017

#### Strategic Goal 1: Capacity Building

<table>
<thead>
<tr>
<th>1.1. Establish conditions ensuring maximum use of available data, products and experience of others engaged in the field of capacity building</th>
</tr>
</thead>
</table>
| 1.1.1. | • Creation and promotion of the database with Capacity Building relevant information  
• Development of a warning system to identify new documents |
| |
| 1.1.2 | • Permanent liaison with IDI for supporting eligible members within the framework of the Global Call of Proposals (GCP)  
• Number of Seminars organized by IDI for non-eligible SAIs on a cost-recovery basis |
| |
| 1.1.3. | • Capacity building strategies have been identified and drafted  
• Paper on EUROSAI GT1’s success stories about capacity building  
• Dissemination to all EUROSAI members underlining the existence, functioning and usefulness of the Hungarian database on best practices |
| |
| 1.1.4. | • Regular reports on the interaction with INTOSAI CBC  
• Regular reports on PMF process and on how EUROSAI specifically can provide input into it |
| |
| 1.2. Establish the operational framework for facilitating capacity building development |
| 1.2.1 | • Identification of needs and gaps building on existing surveys of IDI and information to GT’s or bodies responsible for organizing training programs to address the needs |
| |
| 1.2.2 | • Building on the identified gaps and needs, propose a method for clubbing or associating similar capacity level providers or receivers in cooperation with IDI |

- Database developed and completed in 2013 and handed over to GT3 to be filled with EUROSAI database of products.  
- Knowledge database published on EUROSAI’s website, under GT1 section: contains relevant materials and information on new professional development  
- Identify relevant information available on the websites review in 2016  
- Permanent liaison with IDI and INTOSAI donors to identify funding possibilities  
- Liaison with IDI in order to support eligible members within the framework of the GCP (eg Spain in Nov 2013)  
- Promote the knowledge of IDI tools on capacity development  
- Information on the revision of SAI PMF (version 3.2) Portugal and France collaborate with AISCUF and IDI on the revision and preparation of three indicators for SAIs with jurisdictional functions – SAI 18, 19 and 20  
- Good practices of Capacity Building identified and published as a booklet with the title: Good Practice Examples in the Capacity Building of Supreme Audit Institutions  
- Database on best practies was completed in 2013 and members were informed about it  
- Reports on the Interaction with INTOSAI CBC  
- Secretariat and GT1 chair members’ participation at CBC and Regional Forum for Capacity Building meetings; exchange of experience among GT1 members  
- First report on PMF process and on how Eurosai can provide input to it completed in November 2013.  
- Monitoring the further development of PMF and regular reported  
- A scheme on strategic articulation between Capacity Building success factors defined  
- Capacity building needs and e-learning possibilities identified  
- Support provided by SAI of Georgia in processing the results of the 2014 IDI Global Survey
| Implementa
ton Strategies | Key act | SP Outcomes and Performance Measures (9) | Results achieved until 2017 |
|--------------------------|---------|------------------------------------------|-----------------------------|
| 1.2.3.                   | • Collect information from SAIs about e-learning courses in which SAIs could participate and provide that information on the website  
  • Ensure that EUROSAI website is permanently updated with all GT1 information (GT1 subsection, news and calendar) | • Report on e-learning published and available on EUROSAI’s website: “E-learning modules within EUROSAI”  
  • Contacted SAI’s that can make their e-learning courses available for other SAI’s  
  • Interesting e-learning courses from other organizations (IDI, SAI’s and other partners) identified  
  • Documents and news uploaded to EUROSAI website  
  • Open data seminar organised by SAI of The Netherlands (Amsterdam, November 2015) | |
| 1.2.4.                   | • Regular renewal and promotion of the innovation booklet  
  • Follow-up on innovative ideas from the YES Congress and the 2014 The Hague Congress | • First innovation booklet published before 2014. At the end of the strategic period 4 volumes of the innovation booklet are available on the EUROSAI website  
  • Survey on innovative initiatives conducted  
  • Open Data brought under attention of members  
  • Municipality audit seminar in 2015, Warsaw (Theme: Planning and Execution of the Budget of Municipalities)  
  • Municipality audit seminar in 2016, Vilnius (Theme: Ground-breaking Analysis in Auditing Municipalities – Timely Audit Impact) | |
| 1.3.1                    | • Collect information on training needs and ensure correct articulation with GT3, other GTs and EUROSAI bodies | • Articulation with other GT’s on training needs  
  • During the strategic period regular Reports on EUROSAI training activities by SAI of Portugal and SAI of Czech Republic as GT3 chair | |
| 1.3.2.                   | • Dissemination of the Peer Review Guide of INTOSAI to all EUROSAI Members, in cooperation with Subcommittee 2 of INTOSAI CBC  
  • Regularly report to GT1 on progress made by CBC on that topic | • Dissemination of peer review guide was completed in 2012  
  • Regular reports on progress has been made by CBC-SC2.  
  • GT1 was involved in INTOSAI CBC-SC3 work  
  • Most recent one: report on Peer Review Guide during meeting by SAI of Slovakia | |
| 1.4.1                    | • Questionnaire on independence and analysis of its findings  
  • Report on the progress and relevance of the SAI PMF | • Survey on independence prepared and presented in 2013. Documents are available on EUROSAI’s website (GT1’s Independence section).  
  • Survey conducted, related documents can be found on the Independence section.  
  • Integrity Conference in September 2016. | |
| 1.4.2.                   | • Organization of a seminar on independence in 2014  
  • Dissemination of the UN General Assembly Resolution and of a specific EUROSAI booklet | • Seminar on independence organized in 2014.  
  • Booklet on valuable diversity of SAI’s models in preparation  
  • “Roadmap for Reaching SAI Communication Goals” related to the task on effectively delivering SAI messages published and disseminated | |

**Strategic Goal 2: Professional Standards**

| 2.1. Raise awareness of the ISSAI and INTOSAI Guidelines for Good Governance | 2.1.1. | ISSAI have been translated into the official EUROSAI languages as soon as possible after the approval of the INCOSAI  
  • Translated ISSAI have been made available to EUROSAI members | ISSAI and INTOSAI GOV are available in English, French, German and Spanish and translated in Russian with contribution of the SAI of the Russian Federation ([www.issai.org](http://www.issai.org))  
  • ISSAI 1, 10, 11, 12, 20, 21, 30, 100, 300, |

</tr>
</thead>
</table>
| 2.2. Support EUROSAI members in implementing the ISSAI and INTOSAI Guidelines for Good Governance | 2.2.1. | • Needs have been identified  
• A priority list of implementation needs is available | In 2012 a survey was conducted to identify the needs of EUROSAI members in implementing the ISSAI. The results, published on the EUROSAI website, made the priorities of implementation needs clear.  
• Stocktaking of ISSAI implementation projects (permanent). |
| 2.2.2. | • Number of seminars/ percentage of EUROSAI members participating in seminars (> 50%)  
• Number of SAI.s which refer to ISSAI in their audit reports and/or internal guidance | During the strategic period seminars have been held on the implementation of ISSAI. (See Annex II)  
• In total nine seminars and other trainings were held during the strategic period.  
• Survey showed that most SAI.s apply ISSAI either as SAI standards or as guidelines supporting other standards, and that SAI.s also make reference to the ISSAI in their audit reports (8), general reports (12) or in general communication (15) |
| 2.2.3. | • Relevant professional materials related to the ISSAI framework have been disseminated | Links to material/bibliographies published on www.eurosai.org  
• “Relevant” professional material defined and included in EUROSAI Database of Products. Collection of material is ongoing |
| 2.3. Contribute to the further development of the ISSAI and INTOSAI Guidelines for Good Governance | 2.3.1. | • Permanent reciprocal communication and periodic feedback reports from EUROSAI to INTOSAI PSC  
• Adequate level of EUROSAI participation in PSC activities | Liaison/contact with INTOSAI PSC, its sub-committees, INTOSAI CBC and IDI established. Contact persons from PSC and its subcommittees are members or invited experts for GT2  
• EUROSAI-ECIIA discussion paper on possible revision of INTOSAI GOV 9140 and 9150 submitted to INTOSAI ICS  
• Observation of the process to improve INTOSAI’S standard setting  
• GT2 chair participates in PSC steering committee meetings. EUROSAI members participate in all PSC sub-committees and chair the PSC (Denmark), the Compliance audit sub-committee (Norway) and the Internal control sub-committee (Poland). |
| 2.3.2. | • Possible partner(s) identified  
• Cooperation agreement(s) in place  
• Appropriate joint project(s) identified and implemented | Network of SAI-IA contact persons established and sharing information. Document on national SAI-IA cooperation agreements  
• EUROSAI-ECIIA cooperation committee established. Joint activities: paper on the implementation of INTOSAI GOV 9150, comparative document and Seminar  
• Document on national SAI-IA cooperation agreements |

**Strategic Goal 3: Knowledge Sharing**

3.1. Enhance the use/implementation of the results of the work produced by individual SAIs, EUROSAI and INTOSAI Committees and WGs as a tool for cooperation

3.1.1. A database of audits conducted by the EUROSAI members in different fields has been established and is maintained

3.1.2. A database of products of INTOSAI and EUROSAI WGs and Committees including training materials and networks has been established and is maintained

3.1.3. Number of training events/knowledge sharing seminars carried out within EUROSAI

3.1.4. Level of awareness of useable products (e.g. EUROSAI Website, Websites of EUROSAI WGs, EUROSAI Newsletter, EUROSAI Magazine) to disseminate

3.1.5. Support EUROSAI members in using WGs and TFs developed tools to enhance their institutional or audit capacities

3.2. Enhance audit cooperation within EUROSAI

3.2.1. Updated list identifying areas for cooperative activities at regional and sub-regional levels

3.2.2. Updated list of SAIs requesting or volunteering for cooperative activities

Number of cooperative audits within EUROSAI

During the whole strategic period cooperative audits performed in different...

| 4.2. Strengthen EUROSAI’s capacity to achieve its strategic goals | 4.1.8  | Evaluation of the governance and modus operandi of EUROSAI in two phases | • GT 4 proposal approved by the GB  
• Report on Phase I (on external scan and self-assessment) approved by the Governing Board and distributed to EUROSAI members  
• Concept note for Phase II of the independent evaluation was presented to the GB in June 2016. The GB decided to postpone Phase II of the independent evaluation to 2017 – 2023. |
|                             | 4.2.1  | Operational plans plus updates for achieving the strategic goals have been developed by the individual teams and approved by the Governing Board  
Periodic reports are presented by the teams to the Governing Board | • Report and proposals made to GB reflecting the analyses of annual progress reports from GT.  
• Requirements for the next ESP mid-term evaluation identified.  
• Participation of Secretariat and Presidency in IDI seminar on Strategic planning development  
• the GT’s presented their yearly progress reports |
|                             | 4.2.2  | A new Strategic Plan proposal to be presented to the GB and the 2017 EUROSAI Congress | • Preparation of the new Strategic Plan started in 2015.  
• Draft Strategic Plan proposed to GB and X. EUROSAI congress for approval  
• Evaluation of current strategic period was done during GT4 meeting (as input for the new plan). |
|                             | 4.2.3  | New financial resources have been identified | • EUROSAI financial rules are completed and complied with  
• Funding needs analysed  
• Funding principles and procedures of EUROSAI discussed by GT4 EUROSAI financial rules agreed by GT4 and submitted to GB  
• Financial applications submitted to Governing Board  
• The Governing Board approved the EUROSAI Financial Regulations at the 44th meeting.  
• Options presented to the Governing Board for use of the EUROSAI welfare fund |
|                             | 4.2.4  | Set of good practices and criteria identified, approved by the Governing Board and promoted among the members | • List and analysis of existing guides completed  
• Checklists and good practices on those areas included in Practical Guide (4.1.5.2.) and promoted |
|                             | 4.2.5  | Report of the Secretary General to the Governing Board and rules are in place | • Analysis done on possible rules for staff secondments to the EUROSAI Secretariat  
• Work on different scenarios to support the Secretariat, e.g. with secondments  
• A GB resolution was drafted in which EUROSAI members are encouraged to provide stronger support to the Secretariat, including secondment. The detailed terms of secondments at the Secretariat, including co-financing possibilities, will be agreed within the next SP. |
|                             | 4.3.1  | The member SAI’s satisfaction level with communication mechanisms and tools currently used has been identified  
Report to the Governing Board on the identification and assessment carried | • Identification of communication tools and their mechanisms performed  
• Survey on members’ needs, preferences and expectations in communication area  
• Report prepared on communication policy |
